INDEPENDENT AUDITORS' REPORT

To the Board of Directors Jackson County School District No. 94 Ashland, Oregon 97520

Opinions

We have audited the accompanying cash basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Jackson County School District No. 94 as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise Jackson County School District No. 94's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Jackson County School District No. 94, as of June 30, 2024, and the respective changes in financial position and the respective budgetary comparison for the General Fund and Capital Projects Fund for the year then ended in accordance with the cash basis of accounting described in Note 1.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Jackson County School District No. 94, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the cash basis of accounting, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Jackson County School District No. 94's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if

there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether
 due to fraud or error, and design and perform audit procedures responsive to those risks.
 Such procedures include examining, on a test basis, evidence regarding the amounts and
 disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of Jackson County School District No. 94's internal control.
 Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Jackson County School District No. 94's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis of Matter - Basis of Accounting

We draw attention to Note 1 of the financial statements, which describe the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Other Matters

Management's Discussion and Analysis

Our audit was conducted for the purpose of forming opinions on the financial statements as a whole that collectively comprise Jackson County School District No. 94's basic financial statements. The management's discussion and analysis on pages 4 through 7, which are the responsibility of management, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Jackson County School District No. 94's basic financial statements. The schedule of property tax transactions, school district financial accounting summaries, the combining and individual nonmajor fund financial statements, and budgetary schedules required by state regulations are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of property tax transactions, school district financial accounting summaries, the combining and individual non-major fund statements, and budgetary schedules required by state regulations are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic

financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, schedule of property tax transactions, school district financial accounting summaries, the combining and individual nonmajor fund financial statements, and budgetary schedules required by state regulations are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Schedule of Expenditures of Federal Awards (SEFA) has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express and opinion or provide any assurance on it.

Report on Other Legal and Regulatory Requirements

In accordance with Minimum Standards for the Audits of Oregon Municipal Corporations, we have issued our report dated November 4, 2024, on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

Ashland, Oregon Management's Discussion and Analysis June 30, 2024 (unaudited)

As management of Pinehurst School District No. 94 (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2024. We encourage readers to consider the information presented here. Readers should also review the notes to the basic financial statements and the financial statements themselves to enhance their understanding of the District's financial performance.

Jackson County School District No. 94's budget is prepared in accordance with Oregon law; the District uses a cash basis of accounting. All funds are budgeted in the following funds: the General Fund, the High School Tuition and Transportation Fund, other Special Funds, the Capital Projects Fund, the Student Investment Account (SIA), the Federal Fund and the ESSER III Funds.

USING THIS REPORT

This annual report is presented in a format consistent with the presentation requirements of the Governmental Accounting Standards Board (GASB) Statements No. 34, as applicable to the District's cash basis of accounting.

FINANCIAL HIGHLIGHTS

- The combined ending fund balance of the District's governmental funds was \$742,017, an increase of \$147,725 over the previous year. \$552,861 of the ending fund balance is unassigned and available for spending at the District's discretion, and \$189,156 is assigned for operations and student services.
- There was a carryover balance of \$48,387 in 2023-24 of the ESSER III grant, which was spent
 on unfinished learning and personnel. In addition, the district applied for and was awarded
 \$10,000 for a library revitalization grant.
- The District's General Fund expenditures decreased from \$463,506 in Fiscal Year Ending 2023 to \$401,752 in Fiscal Year Ending 2024, a decrease of about 13% (percent). The primary reason for the decrease was due to an unexpected mid-year decrease in enrollment which caused staff layoffs and thus a decrease in payroll expenses.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements, which consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains supplementary information to the basic financial statements themselves. The statements proceed in a manner to provide an increasingly detailed look at specific financial activities.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances. They are prepared on a cash basis of accounting, which means that all of the current year's revenues and expenses are recorded when cash is either received or paid. This method differs from most private-sector companies which report on the accrual basis of accounting, a basis that recognizes the current year's revenues and expenses when earned or incurred regardless of when cash is received or paid.

Ashland, Oregon Management's Discussion and Analysis June 30, 2024 (unaudited)

The District's government-wide financial statements include:

- The Statement of Net Position Cash Basis. The statement of net position presents information on all of the assets and liabilities of the District at year-end. Net position is what remains after the liabilities have been paid or otherwise satisfied. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. The causes of any changes may be the result of many factors, some financial and some not. Non-financial factors include current property tax laws in Oregon restricting revenue growth, changes in enrollment in the District, facility conditions, required educational programs, and other factors.
- The Statement of Activities Cash Basis. The statement of activities presents information on governmental activities. Governmental activities are the activities where most of the District's programs and services are reported, including, but not limited to, instruction, support services, administration, and operation and maintenance. These activities are primarily financed through property taxes, Oregon's State School Fund and other intergovernmental revenues.

Fund Financial Statements. The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District's major recurring governmental funds are the General Fund, High School Tuition and Transportation Funds, the State and Local Funds, and the Federal Fund. The District, as other state and local governments do, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The analysis of the District's major funds begins with the Statement of Cash Basis Assets and Fund Balances. The General Fund is the District's most significant fund with about 73% (percent) of all district revenue and 70% (percent) of expenses flowed through the General Fund in fiscal year 2023-24.

Governmental Funds. All of Jackson County School District No. 94's activities are reported on a cash basis in governmental funds. The governmental fund statements focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. They provide a detailed short-term view of the District's general governmental operations and the basic services it provides.

Ashland, Oregon Management's Discussion and Analysis June 30, 2024 (unaudited)

GOVERNMENTAL ACTIVITIES

Through the decade of the 1990s, K-12 education in Oregon became state funded. While the District still levies a fixed amount per \$1,000 of assessed value, this revenue is included in the State's calculation of its General Purpose Grant for overall school district funding.

DEBT ADMINISTRATION

At the end of the fiscal year, Jackson County School District No. 94 had no outstanding short or long-term obligations.

CAPITAL ASSETS - CASH BASIS

Capital assets acquired for use in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. The District does not possess any infrastructure capital assets.

GENERAL FUND BUDGET HIGHLIGHTS

Pinehurst School District No. 94's budget is prepared according to Oregon law and is based on accounting for certain transactions on a basis of cash receipts and disbursements. All funds are budgeted but the most significant budgeted fund is the General Fund.

	Final Budget	<u>Actual</u>
Instruction	\$ 273,179	\$ 180,698
Supporting Services	253,562	220,951
Community Services	1,400	103
Transfers	13,000	8,558
Contingencies	448,170	_
	\$897,985	\$503,506

CURRENT FINANCIAL ISSUES AND CONCERNS

The enrollment at Pinehurst School's K-6 continues to fluctuate, with 18 students in 2020-21, 12 students in 2021-22, fluctuating enrollment in 2022-23, starting at 21 and ending with 13 students. There were 12 students at the start of 2023-24 which decreased to 5 students by year end. We project 8 students in 2024-25. Due to the "safety net", the district receives state funding based upon the highest enrollment of the current year or prior year. In addition, the strong reserve balance allows for the stability and continuity of the district.

For additional financial information, contact: Tracy Gault, Business Manager Tel# 541.482.1910.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

Jackson County School District No. 94 (The District) is an Oregon Municipal Corporation governed by an elected five-member board of directors, which has responsibility and control over all activities related to the District. The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. The District has no component units.

Basis of Presentation

The financial statements of Jackson County School District No. 94 have been prepared on the cash basis of receipts and disbursements, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Except for the use of the cash basis of accounting, the District complies with accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements.

Basic Financial Statement Presentation

Government-wide Financial Statements

The government-wide financial statements (Statement of Net Position - Cash Basis and the Statement of Activities - Cash Basis) display information about the District as a whole. These statements include the governmental financial activities of the overall District.

The Statement of Net Position - cash basis presents the financial condition of the governmental activities of the District at year-end. The Statement of Activities - cash basis presents a comparison between direct expenses and program revenues for each of the functions or programs of the District. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to that function. Program revenues include: charges to students or others for tuition, fees, rentals, material, supplies or services provided; operating grants and contributions; and capital grants and contributions. Revenues that are not classified as program revenues, including property taxes and state support, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District. The effect of inter-fund activity has been removed from these statements.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available. Net assets are reported as restricted when constraints placed on net asset use are either externally restricted, imposed by creditors (such as through grantors, contributors or laws) or through constitutional provisions or enabling resolutions.

Fund Financial Statements

The fund financial statements provide information about the District's funds. Each fund is accounted for by providing a separate set of self-balancing accounts that constitutes its assets, liabilities, fund equity, revenues, and expenditures/expenses. Separate statements for each fund category are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as other governmental funds.

Ashland, Oregon Notes to Basic Financial Statements June 30, 2024

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basic Financial Statement Presentation (Continued)

Major Funds

A fund is considered major if it is the primary operating fund and meets the following criteria:

- a) Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- b) Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

Separate fund financial statements are provided for the governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following fund types:

<u>General Fund</u> - The General Fund is used to account for all financial resources except those required to be accounted for in another fund. The principal revenue sources are property taxes and the state school support funds from the State of Oregon. The General Fund is the District's major fund.

<u>Capital Projects Fund</u> – The Capital Project Fund is used to account for improving and renovating the building and land for the school district.

<u>Special Revenue Funds</u> – The Special Revenue Funds are used to account for the proceeds of specific revenue sources collected that are restricted to expenses paid for specified purposes. Principal revenue sources collected are federal and state grants. Funds included in this category are:

State and Local Fund – a non-major fund Federal Fund – a non-major fund High School Tuition and Transportation Fund – a non-major fund

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "how" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

In the government-wide statement of net assets and the statement of activities, governmental activities are presented using the economic resources measurement focus, within the limitations of the cash basis of accounting.

In the fund financial statements, the current financial resources measurement focus is used. All governmental funds utilize a current financial resources measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

Ashland, Oregon Notes to Basic Financial Statements June 30, 2024

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting

The government-wide statement of net assets and statement of activities and the fund financial statements are presented using the cash basis of accounting. This basis recognizes assets, liabilities, net assets/fund equity, revenues and expenditures/expenses when they result from cash transactions. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

As a result of the use of the cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

If the District utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Cash and Cash Equivalents

The District's cash and cash equivalents consist of cash on hand, demand deposits and short-term investments with original maturities of three months or less. Short-term investments are stated at cost, which approximates fair value.

Inventories

The District utilizes the "purchases" method of accounting for inventories. Under this method, inventories are recorded as expenditures upon acquisition.

Property Taxes

Ad valorem property taxes are levied on all taxable property as of January 1st. Property taxes become a lien on July 1st for personal and real property. Collection dates are November 15th, February 15th, and May 15th. Discounts are allowed if the amount due is received by November 15th or February 15th. Taxes unpaid and outstanding on May 16th are considered delinquent.

Uncollected property taxes are not shown in the government wide statement of assets and liabilities arising from cash transactions.

Budget

Except for certain trust and agency funds, the District is required by state law to budget all funds. The District prepares all budgets on the cash method of accounting. The legal level of budgetary control is at the fund level. For each fund, total fund expenditures may not legally exceed the budgeted amounts. The lowest level appropriations are adopted at the fund level. Expenditure appropriations may not be legally over expended except in the case of grant receipts that could not be reasonably estimated at the time the budget was adopted. Appropriations lapse at the end of each fiscal year.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted that covered the entire fiscal year. The amounts reported as the final budgeted amounts in the budgetary statements represent the final appropriation amounts passed by the Board during the year.

Ashland, Oregon Notes to Basic Financial Statements June 30, 2024

NOTE 1 – SIGNIFCANT ACCOUNTING POLICIES (CONTINUED)

Fund Balances

Fund balances represent the difference between assets and liabilities in the government-wide financial statements. The District has adopted GASB Statement No. 54, which redefined how fund balances are classified as follows:

Nonspendable - Amounts that cannot be spent either because they are not in a spendable form or because they are legally or contractually required to be maintained intact.

Restricted - Amounts that can be spent only for specific purposes when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Committed - Amounts that can be used only for specific purposes determined by a formal action of the District's highest level of decision making authority.

Assigned - Amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed.

Unassigned - All amounts not included in other spendable classifications.

In governmental funds, when an expenditure is incurred that can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to other less restrictive classifications - committed, assigned, and then unassigned fund balances. There was no effect on beginning fund balance as a result of adopting this new accounting principle.

Restricted Assets

Restricted assets are cash and cash equivalents whose use is limited by creditors, contributors, grantors, or laws of other governments or imposed by enabling legislation. Restricted assets reported in the government-wide statements include cash and cash equivalents received from federal sources.

Inter-fund Activity

Exchange transactions between funds are reported as revenue in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as inter-fund transfers. Inter-fund transfers are reported as other financial sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Estimates

The preparation of basic financial statements in conformity with the other comprehensive basis of accounting used by the District requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Ashland, Oregon Notes to Basic Financial Statements June 30, 2024

NOTE 2 - CASH AND INVESTMENTS

The District maintains cash and investments with the Local Government Investment Pool and Umpqua Bank, which are available for use by all funds. Each fund type's portion of these accounts is displayed on the Governmental Fund Statement of Cash Basis Assets and Fund Balances as cash and cash equivalents.

Cash and investments are comprised of the following at June 30, 2024:

Petty cash	\$	100
Deposits with financial institutions:		
Demand deposits		23,322
Investments		718,595
Total	\$	742,017

Cash and investments are reflected on the basic financial statements as:		
Governmental Funds:		
Cash and cash equivalents	\$_	742,017

Deposits

The Governmental Accounting Standards Board Statement No. 40, *Deposit and Investment Risk Disclosures*, requires government agencies to disclose an indication of the level of risk assumed by the entity at year-end. If bank deposits at year-end are not entirely insured or collateralized with securities held by the District or by its agent in the District's name, the District must disclose the custodial credit risk that exists. Deposits with financial institutions are held in the name of the District and are comprised of bank demand deposits. ORS Chapter 295 governs the collateralization of Oregon public funds and provides the statutory requirements for the Public Funds Collateralization Program. Bank depositories are required to pledge collateral against any public funds deposits in excess of deposit insurance amounts. The custodian, Federal Home Loan Bank of Seattle, is the agent for the depository bank. The securities are designated as subject to the Pledge Agreement between the Depository Bank, Custodian Bank and Office of the State Treasury (OST) and are held for the benefit of OST on behalf of the public depositors.

The Office of the State Treasury monitors the banks' collateral and issues a list of qualified bank depositories to public officials to verify the banks they do business with comply with State collateralization requirements. The District's financial institution, Umpqua Bank, is on the approved list.

Custodial credit risk - Custodial credit risk for deposits is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk.

Ashland, Oregon Notes to Basic Financial Statements June 30, 2024

NOTE 2 – CASH AND INVESTMENTS (CONTINUED)

Investments

The District has invested funds in the State Treasurer's Oregon Short-Term Fund Local Government Investment Pool during fiscal year 2024. The Oregon Short-Term Fund is the local government investment pool for local governments and was established by the State Treasurer. It was created to meet the financial and administrative responsibilities of federal arbitrage regulations. The investments are regulated by the Oregon Short-Term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895). Local Government Investment Pool (LGIP) is an external investment pool managed by the State Treasurer's office, which allow governments within the state to pool their funds for investment purposes. The amounts invested in the pool are not classified by risk categories because they are not evidenced by securities that exist in physical or book entry form as defined by GASB Statement No. 40. The LGIP is unrated.

In addition, the Oregon State Treasury LGIP distributes investment income on an amortized cost basis and participants' equity in the pool is determined by the amount of participant deposits, adjusted for withdrawals and distributed income. Accordingly, the adjustment to fair value would not represent an expendable increase in the District's cash position.

Investments in the Oregon State Treasury LGIP are made under the provisions of ORS 194.180. These funds are held in the District's name and are not subject to collateralization requirements of ORS 295.015. Investments are stated at cost, which approximates fair value.

State of Oregon statutes restrict the types of investments in which the District may invest. Authorized investments include obligations of the U.S. Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, time certificates of deposit, certain commercial paper, and the State of Oregon Treasurer's Local Government Investment Pool. As of June 30, 2024 and for the year then ended, the District was in compliance with the aforementioned State of Oregon statutes.

Credit Risk - State Statutes authorize the District to invest primarily in general obligations of the U.S. government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, time certificates of deposit, certain commercial paper, and the State of Oregon Treasurer's Local Government Investment Pool, among others. The District has no formal investment policy that further restricts its investment choices.

Concentration of Credit Risk - The District is required to provide information about the concentration of credit risk associated with its investments in one issuer that represents 5 percent or more of the total investments, excluding investments in external investment pools or those issued and explicitly guaranteed by the U.S. Government. The District has no such investments.

Interest Rate Risk - The District has no formal investment policy that explicitly limits investment maturities as a means of managing its exposure to fair value loss arising from increasing interest rates.

The District's investments at June 30, 2024 are comprised of:

	Carrying	Market
	<u>Amount</u>	<u>Value</u>
Investments not subject to categorization:		
State of Oregon Treasurer's		
Local Government Investment Pool	<u>\$ 718,595</u>	\$ 718,595

Ashland, Oregon Notes to Basic Financial Statements June 30, 2024

NOTE 3 – RETIREMENT PLANS

Plan Description

The District contributes to two pension plans administered by the Oregon PERS. The Oregon Public Employees Retirement fund (OPERF) applies to the District's contribution for qualifying employees who were hired before August 29, 2003, and is a cost-sharing multiple-employer defined benefit pension plan. The Oregon Public Service Retirement Plan (OPSRP) is a hybrid successor plan to the OPERF and consists of two programs: 1) The Pension Program, the defined benefit portion of the plan, applies to qualifying District employees hired after August 29, 2003. Benefits are calculated by a formula for members who attain normal retirement age. The formula takes into account final average salary and years of service. 2) Beginning January 1, 2004, all PERS member contributions are directed into the Individual Account Program (IAP), the defined contribution portion of the plan. PERS members retain their existing PERS accounts, but any subsequent member contributions are deposited into the member's IAP, not the member's PERS account.

Both PERS plans provide retirement and disability benefits, post-employment healthcare benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. PERS is administered under Oregon Revised Statute Chapter 238, which establishes the Public Employees Retirement Board as the governing body of PERS. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, P.O. Box 23700, Tigard, Oregon 97281-3700, by calling (503) 598-7377, or by downloading the report from the PERS website, www.oregon.gov/pers/pages/index.aspx.

The ORS Chapter 238 Defined Benefit Plan (OPERF) is closed to new members hired on or after August 29, 2003. This plan offers the following benefits:

Pension Benefits

The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees and 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results.

Death Benefits

Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following contributions are met:

- Member was employed by PERS employer at the time of death,
- Member died within 120 days after termination of PERS covered employment,
- Member died as a result of injury sustained while employed in a PERS-covered job, or
- Member was on an official leave of absence from a PERS-covered job at the time of death.

Ashland, Oregon Notes to Basic Financial Statements June 30, 2024

NOTE 3 - RETIREMENT PLANS (CONTINUED)

Disability Benefits

A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including PERS judge members) for disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining the monthly benefit.

Benefit Changes after Retirement

Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value of equity investments. Under ORS 238.360, monthly benefits are adjusted annually through cost-of-living changes. The cap on the COLA will vary based on the amount of the annual benefit.

The ORS Chapter 238A Defined Benefit Pension Program (OPSRP) provides benefits to members hired on or after August 29, 2003. This plan offers the following benefits:

Pension Benefits

This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

- Police and fire 1.8 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.
- General Service 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

Death Benefits

Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.

Disability Benefits

A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

Benefit Changes after Retirement

Under ORS 238A.210, monthly benefits are adjusted annually through cost-of-living changes. The cap on the COLA will vary based on the amount of the annual benefit.

Ashland, Oregon Notes to Basic Financial Statements June 30, 2024

NOTE 3 – RETIREMENT PLANS (CONTINUED)

Funding Policy

Members of PERS are required to contribute 6.00% of their salary covered under the plan, which is invested in the OPSRP Individual Account Program. The District is required by ORS 238.225 to contribute at an actuarially determined rate for the qualifying employees under the OPERF plan, and a general service rate for the qualifying employees under the OPSRP plan. There were no qualifying employees under the OPERF plan for the year ended June 30, 2024. The OPSRP rate in effect for the year ended June 30, 2024 was 31.03%. The contribution requirements for plan members are established by ORS chapter 238 and may be amended by an act of the Oregon Legislature. Covered employees are required by state statute to contribute 6% of their annual salary to the plan, which the District has agreed to pay, in lieu of an equivalent salary increase.

Annual Pension Cost

The District's contributions to PERS and OPSRP for the years ending June 30, 2024, 2023, and 2022 were \$62,274, \$60,547, and \$59,582 respectively, equal to the required contributions for each year.

NOTE 4 – OTHER POST EMPLOYMENT BENEFITS (OPEBs)

The District implemented GASB Statement No. 75, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, (OPEB) for the fiscal year ended June 30, 2019. This Statement replaces the requirements of Statement 45 and establishes new accounting and financial reporting requirements.

<u>Plan Description</u> - The District policy for employees that choose to retire early and were hired by the District prior to June 30, 2009, will be eligible to receive a retirement stipend under the following conditions: 1) the employee must have worked for the District a minimum of 20 years prior to retiring; 2) the employee must be between the age of 55 and the legal age for Medicare eligibility; and 3) there are sufficient funds, as determined by the Budget Committee and Board of Directors.

Annual OPEB Cost

The District currently does not have a retiree that is eligible to receive a retirement stipend.

NOTE 5 - CONTINGENCIES

Amounts received from grantor agencies are subject to audit and adjustment by these agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the District. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although District management expects such amounts, if any, to be immaterial.

NOTE 6 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The district carries commercial insurance for all such risks of loss, including workers' compensation and employees' health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Ashland, Oregon Notes to Basic Financial Statements June 30, 2024

NOTE 7 – OPERATING TRANSFERS

The following operating transfers occurred for the year ended June 30, 2024:

	Operating	Operating
	Transfers	Transfers
Operating transfers included in the Governmental Funds	In	Out
- Statement of Revenues, Expenditures, and	\$ 8,558	\$ 8,558
Changes in Cash Basis Fund Balances	\$ 8,558	\$ 8,558

Interfund transfers occurred in the amount of \$8,558. The transfer activity is as follows: \$8,558 was transferred out from the General Fund to the Enterprise Fund.

NOTE 8 – BUDGET EXPENDITURES

The District has complied with budget documents in regards to expenditures for the year ended June 30, 2024.

NOTE 9 - SCHOOL FUNDING

The District is dependent on the State of Oregon for a substantial portion of its operating funds. Due to funding uncertainties at the State level, future funding for school districts may be reduced. The ultimate effect of this possible reduction in funding on the District's future operations is not yet determinable.

NOTE 10 - SUBSEQUENT EVENTS

Management evaluates events and transactions that occur after the statement of financial position date as potential subsequent events. Management has performed this evaluation through the date of the auditor's report and has determined that there have been no events that occurred that would require adjustment to or disclosure in the financial statements as of and for the year ended June 30, 2024.

AUDIT COMMENTS AND DISCLOSURES REQUIRED BY STATE REGULATIONS

Oregon Administrative Rules 162-10-050 through 162-10-330, incorporated in the Minimum Standards for Audits of Oregon Municipal Corporations, prescribed by the Secretary of State in cooperation with the Oregon State Board of Accountancy, enumerate the financial statements, schedules, comments and disclosures required in audit reports. The required statements and schedules are set forth in the Financial Section of this report. Required comments and disclosures related to our examination of such statements and schedules are set forth in the following pages.

Certified Public Accountants And Business Advisors

Independent Auditors' Report Required by Oregon State Regulations

We have audited the basic financial statements of Jackson County School District No. 94 as of and for the year ended June 30, 2024, and have issued our report thereon dated November 4, 2024. We conducted our audit in accordance with auditing standards generally accepted in the United States of America.

Compliance

As part of obtaining reasonable assurance about whether Jackson County School District No. 94's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposits of public funds with financial institutions (ORS Chapter 295).
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required (ORS Chapter 294).
- Insurance and fidelity bonds in force or required by law.
- Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).
- State school fund factors and calculation.

In connection with our testing, nothing came to our attention that caused us to believe Jackson County School District No. 94 was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered Jackson County School District No. 94's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

This report is intended solely for the information and use of the board of directors and management of the District and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

Isler Medford, LLC November 4, 2024

Ashland, Oregon Audit Comments and Disclosures June 30, 2024

I. Internal Control

We have audited the financial statements of Jackson County School District No. 94 as of and for the year ended June 30, 2024, and have issued our report thereon dated November 5, 2024. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. In performing our audit, we considered the District's internal controls and found them adequate for audit.

II. Accounting Records

Generally, we found the accounting records of the District to be adequate for audit.

III. Adequacy of Collateral Securing Depository Balances

Based on the results of our tests, the District's records, balances on deposit with financial institutions were secured in accordance with the requirements of ORS 295.

IV. Indebtedness

The District's bonded indebtedness was in compliance with the provisions of ORS 328.245. The District was in compliance with all debt covenants.

Real market value of all taxable property within Jackson County School District No. 94	\$ =	109,084,277
Bonded debt limit – 4.95% of real market value	\$	5,399,672
Bonded debt at June 30, 2024		_
Debt margin, June 30, 2024	\$	5,399,672

V. Budget Compliance

We reviewed the preparation, adoption, and execution of the budget of the year ended June 30, 2024 and the preparation and adoption of the budget for the year ended June 30, 2025. The District has complied with statutory requirements for the current and ensuing year's budget. The legal level of budgetary control is at the fund level. Resolutions authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations. Budgeted amounts are as originally adopted or as amended by the Board of Directors.

VI. Insurance and Fidelity Bond Coverage

We confirmed the District's insurance policies and determined that such policies appeared to be in force at June 30, 2024. We are not competent by training to comment on the adequacy of the insurance policies covering District-owned property at June 30, 2024.

VII. Programs Funded From Outside Sources

The District received \$95,090 in federal funds for the current year. Reported in the Federal Fund is \$28,240 received for Title VI Rural Education; \$58,387 received for Emergency Relief; \$705 received for Improving Teacher Quality and \$7,495 was received for IDEA Part B. Federal forest fees of \$263 are reported in the General Fund.

Ashland, Oregon Audit Comments and Disclosures June 30, 2024

VIII. Investments

Based on our review of the District's records it appears that the District was in compliance with the legal requirements of ORS Chapter 294 pertaining to the investment of public funds as of and for the year ended June 30, 2024.

IX. Public Contracts and Purchasing

The District appears to have complied with the legal requirements pertaining to the awarding of public contracts and the construction of public improvements as contained in ORS Chapter 279.

X. State School Fund Distribution Factors

We have performed the procedures recommended by the Oregon Secretary of State, Audits Division, regarding the District's compliance with the requirements of ORS 327.013, as further defined by the Oregon State Department of Education, pertaining to the District's calculation and reporting of the factors used to compute the State School Fund distribution for the year ended June 30, 2024.
